

# StudioTek 130 G3

The G3's ultra-fine optical coating improves uniformity for consistent brightness across the entire screen

StudioTek 130 G3 is a flexible front projection screen material that is formulated to provide optimized white field uniformity unmatched by competing gain screens. StudioTek 130 G3 is over 30% brighter than a matte-white screen surface. Certified by THX, StudioTek 130 G3 is the reference standard projection material within the AV industry.

## FEATURES

- Over 30% brighter than matte-white material
- Studio industry standard reference screen
- Superior performance in environments where ambient light can be controlled
- Superb color and white field uniformity
- Certified by the Imaging Science Foundation (ISF)

<b>Material Type</b>	<b>Flexible Front Projection</b>
<b>Gain</b>	<b>1.3</b>
<b>Half Gain</b>	<b>68 degrees</b>
<b>Minimum Throw Distance</b>	<b>1.3 x image width</b>
<b>Ambient Light Front Reflectance Value</b>	<b>82% per foot candle</b>
<b>Ambient Light Resistance</b>	<b>Controlled lighting is recommended</b>
<b>Lay Flat Quality</b>	<b>Excellent</b>
<b>Flame Resistance</b>	<b>Yes</b>
<b>Optional Sound Perforations</b>	<b>Microperf X2</b>
<b>Size Limitations</b>	<b>40' x 90' - Seamless</b>
<b>Screen Models</b>	<b>Fixed, retractable, variable masking</b>
